

REQUEST FOR QUALIFICATIONS

The County of Fairfax, Virginia is soliciting qualifications from consulting firms for annual design services for environmentally-related designs and environmental permitting services from pertinent local, state, and federal agencies. Interested firms are required to have expertise in the preparation of design plans utilizing bio-engineering and other innovative design techniques for streambank stabilization, wetland mitigation, aquatic gardens, and other environmentally sensitive designs including any permitting services associated with these designs. The initial contract will be established to run for one (1) calendar year with the option to extend for two (2) years. No survey work will be required for the design work.

All firms with current information already on file with the Department of Public Works and Environmental Services will be considered, but may submit four (4) updated GSA 254 and 255 forms to the Director, Stormwater Planning Division, Suite 449, 12000 Government Center Parkway, Fairfax, Virginia 22035-0052. Item 9 of Form 255 should be modified to show work performed for Fairfax County.

Evaluation factors to be utilized by the Selection Committee in determining the firm(s) deemed to be the most qualified to perform the required services include: the ability and experience of the firm; professional personnel assigned; past performance; ability to meet time and budget requirements; location; recent, current and projected workload; and volume of work previously awarded by the County.

Questions should be directed to Darold Burdick or Don Demetrius of the Stormwater Planning Division at 703-324-5500, TTY 711. All submissions are to be made no later than 4:00 P.M., local time, on April 27, 2004.
